

Diversitas

March, 2017 | Talent Acquisition training for People with Disabilities

In Lenovo we are proud to actively promote diversity in our workforce and the workforces of those with whom we do business. We respect and value individuals for their diverse backgrounds, experiences, styles, approaches and ideas. We rely upon diversity to inspire innovation that drives our business, enhance our competitive advantage and serve consumers across the world.

For that reason we are organizing a training to support and encourage PwD applicants. The training will be organized by the Lenovo Diversity group and delivered by the Talent Acquisition department to guarantee the quality of the content.
